

Student Consumer Information

The Higher Education Act of 1965 (HEA), as amended by the Higher Education Opportunity Act of 2008 (HEOA), includes many disclosure and reporting requirements. A disclosure requirement is information that a postsecondary education institution is required to distribute or make available to another party, such as students or employees. A reporting requirement is information submitted to the U.S. Department of Education or other agencies. Disclosure and reporting requirements sometimes overlap. For certain topics, institutions are required to make information available to students or others and to submit information to the Department of Education.

Kennesaw State University is committed to the principle of promoting access to information that will allow consumers such as students, parents, counselors, researchers, and legislators to make informed decisions about postsecondary education. This web portal provides a single access point to all federally mandated reports and disclosures. This information is provided to all enrolled students via email.

HEOA Sec. 488(a)(3) amended HEA Sec. 485(a) (20 U.S.C. 1092(a)): added HEA Sec. 485(a)(7)

HEOA amendments effective August 14, 2008 (see exception below)

34 CFR 668.41(a)-(d), 34 CFR 668.45, 34 CFR 668.8(b)(1)ii
August 21, 2009 NPRM (revised 34 CFR 668.45)

Each institution must annually make available to prospective and enrolled students the completion or graduation rate of certificate- or degree-seeking, first-time, fulltime, undergraduate students. The data are to be available by July 1 each year for the most recent cohort that has had 150 percent of normal time for completion by August 31 of the prior year. If the information is requested by a prospective student, it must be made available prior to the student's enrolling or entering into any financial obligation with the institution.

Note: Institutions may add other information to their completion/graduation rate disclosures (e.g., graduation rates for other timeframes, but the HEA-required information must be identifiable and separate from any additional information).

An institution that determines that its mission includes providing substantial preparation for students to enroll in another Title IV, HEA-eligible institution must disclose a transfer-out rate for each cohort.

A student shall be counted as a completion or graduation if the student earns a degree or certificate or completes a transfer-preparatory program within 150 percent of normal time for the student's program.

Note: These data are collected in the IPEDS Graduation Rate Survey (GRS)

For more information:

<http://nces.ed.gov/ipeds>

The HEOA (Sec. 488(a)(3)) added a provision requiring that the completion or graduation rates must be disaggregated by

- gender;
- major racial and ethnic subgroup [as defined in IPEDS];

- recipients of a Federal Pell Grant;
- recipients of a subsidized Stafford Loan who did not receive a Pell Grant; and
- students who did not receive either a Pell Grant or a subsidized Stafford Loan.

[Students are to be considered to have received a grant or loan if they received it during the period used for determining the cohort – fall term or full year.]

These disaggregated rates are to be disclosed only if the number of students in each group is sufficient to yield statistically reliable information and not reveal personally identifiable information about an individual student. **The requirement for disaggregation does not apply to 2-year degree-granting institutions until academic year 2011-2012.**

Institutions are allowed to exclude from completion/graduation or transfer-out rate calculations those students who leave school to serve in the Armed Forces, on official church missions, or with a federal foreign aid service, or are deceased or totally and permanently disabled.

The HEOA (Sec. 488(a)(2)) added a provision that applies to institutions for which students who leave school to serve in the Armed Forces, on official church missions, or with a recognized federal foreign aid service represent 20 percent or more of the certificate- or degree-seeking, full-time undergraduates at the institution. Those institutions may include the students who leave for such service in their completion/graduation rate calculations but allow for the time the students were not enrolled due to their service [by adding the time period the students were not enrolled due to their service to the 150 percent of normal time used in the calculations.]

HEOA amendments effective August 14, 2008

July 28, 2009 NPRM (added 34 CFR 601.2, 34 CFR 601.10, 34 CFR 668.14(b)(28))

Each institution must annually make available in print or other medium to students attending the institution and their families a list of the specific lenders for private education loans or for Title IV, HEA loans that the institution recommends, promotes, or endorses in accordance with a preferred lender arrangement.

The list must prominently disclose the method and criteria used by the institution in selecting lenders for preferred lender arrangements to ensure that such lenders are selected on the basis of the best interests of the borrower. The list must also clearly and fully disclose

- the minimum information determined by the Department of Education (HEA Sec. 153(a)) (see "Preferred Lender Arrangements");
- why the institution participates in a preferred lender arrangement with each lender, particularly with respect to terms and conditions or provisions favorable to the borrower; and

- that the students or their families do not have to borrow from a lender on the list.

The list must have at least three FFELP lenders who are not affiliates of each other. If the list includes private loans, there must be at least two lenders who are not affiliates. The list must indicate for each lender whether it is or is not an affiliate of the other lenders on the list. The details of each affiliation are to be disclosed. The Department of Education is required to provide to institutions a list of the lender affiliates of all eligible lenders.

Consent to use Federal Financial Aid Funds

Notice and Authorizations 34 CFR 668.165(a)

Before a school can perform any of the following activities, a school must obtain authorization from a student (or parent borrower):

- Disburse FWS wages by EFT to a bank account designated by the student or parent;
- Use FSA funds (including FWS) to pay for allowable charges other than tuition, fees and room and board if the student contracts with the school.
- Hold an FSA credit balance.
- Apply FSA funds to prior-year charges other than for tuition, fees, room, and board not to exceed \$200.

A school may not require or coerce the student or parent to provide the authorization and must clearly explain to the student or parent how to cancel or modify the authorization. The student or parent may cancel or modify the authorization at any time.

A cancellation or modification is not retroactive—it takes effect on the date that the school receives it from the student or parent. If a student or parent cancels an authorization to use FSA program funds to pay for allowable charges other than tuition, fees and room and board (if the student contracts with the school), or prior-year charges other than for tuition, fees, room, and board, the school may use FSA funds to pay any authorized charges incurred by the student before the notice was received by the school. If a student or parent cancels an authorization to hold excess funds, the funds must be paid directly to the student or parent as soon as possible, but no later than 14 days after the school receives the notice.

Unless otherwise specified, a student or parent may authorize a school to carry out the activities for which authorization is provided for the entire period that the student is enrolled at the school.

A student or parent may cancel or modify an authorization at any time. It is understood by the student that the authorization will be in effect unless the student indicates otherwise.

Student Complaint Process

How Disclosed: This made available via the KSU website.

An institution that participates in the Federal student aid programs authorized under Title IV of the Higher Education Act of 1965, as amended, must be authorized to operate by the State(s) where it is located (*See* 34 CFR 600.9). There are two basic requirements for an institution to be considered legally authorized by the State for Title IV funding eligibility purposes:

- The State must authorize an institution by name to operate educational programs beyond secondary education. This requirement applies to all institutions, but the way compliance is determined depends on the type of postsecondary institution being authorized; and

- The State must have a process applicable to all institutions, except tribal and Federal institutions, to review and appropriately act on complaints concerning the institution, including enforcement of applicable State laws.

The requirement for a State to have a process to review and act upon student complaints is distinct from the process a State has to authorize an institution by name to operate educational programs beyond secondary education.
